

## how to get a free netflix account in 2024 youtube [#PU083#]

**CLICK ON THE BUTTON ABOVE TO START**

in addition to the mobile phone plan netflix also offers a basic plan which costs rs 199 monthly or rs 2 388 per year the plan offers many of the same advantages as the netflix mobile bundle but you can watch the content on other devices such as a laptop and a tv box there will only be a certain number of downloading and active displays per device the first way to enjoy netflix for free is through a third party you can get an exclusive netflix free trial through a retailer or service provider sometimes when you buy a brand new smart tv you ll receive a free netflix trial for a few weeks or a month you can look for options offering a free netflix trial on each purchase under the new restrictions introduced in may 2023 you ll be asked to set a primary location which netflix will likely determine based on your device s ip address for more on that jump to the how will netflix stop password sharing section below once this primary location is set people who don t live there will have three options if you experience an account hack it can be shocking confusing and infuriating you may not know exactly what to do and may react without thinking first this is a dangerous space to be in because it can cause you to do things that only make things worse
